

Features	VFC NEXGEN	L***G
Real-time alerts & mobile monitoring of temperature data	✓	✗
Detects refrigeration system failures in minutes – Not Days	✓	✗
Continued operation and mobile alerts even after all wired utilities have failed	✓	✗
100% Tamper-proof temperature data storage & delivery	✓	✗
100% User accountability at all levels	✓	✗
Alert messages are confirmed when received and escalated when they're not	✓	✗
On-site physical responses by responders are confirmed or escalated	✓	✗
Secure audit trail of all account changes and response information	✓	✗
Photo confirmation & timestamp of Emergency Plan implementation	✓	✗
Automatically combines temperature excursions with response data	✓	✗
Displays response data on temperature graphs for simplified audits	✓	✗
Scheduled reports & data delivery (FTP/Email attachments)	✓	✗
Multiple account & tiered-level access via single login	✓	✗
Iconic temperature displays on your own site maps to manage multiple devices	✓	✗
End-to-end real-time supervision of all system components	✓	✗
Zero downtime w/advanced-shipped NIST recertified replacements	✓	✗
100% Plug-and-Play with zero on-site setup required	✓	✗
Digital temperatures sensing (Vs. analog) for extreme accuracy	✓	✗
Secure cloud storage of all data	✓	✗
Mobile App (iOS & Android)	✓	✗
No maintenance. No battery replacement with service.	✓	✗
Refrigerator door supervision & alarms	✓	✗
Enhanced safety by guarding against being placed under cold packs	✓	✗
Wire-free probes to prevent leaky door seals & ice build-up	✓	✗
Lifetime warranty (No questions asked replacements)	✓	✗
